More on PDFs

An Adobe PDF document is preferred for optimal reproduction of your camera-ready advertisement. It is recommended that you submit your completed ad to us in a PDF format to eliminate the need to provide us with the document, art, photos and fonts. However, once you give us a PDF file, we cannot make changes to your ad. Therefore, the original document must be prepared with CMYK PROCESS COLORS (DO NOT INCLUDE RGB OR SPOT COLORS) and the images must be CMYK. RGB photos will not reproduce as expected.

We do not accept ads in the following formats:

Corel Draw, MS Word, MS Excel, MS Publisher, MS Powerpoint, Also, Quark, InDesign, Illustrator, and PageMaker documents.

AdSend and AdTransit

- Hearst Connecticut Media Group participates with AdSend and AdTransit to assist those customers who prefer to use this ad delivery service.

The preferred document creation program is Adobe InDesign. Photoshop and Adobe Illustrator should be used for creating components that are to be placed into the InDesign document, for example.

Use of Photoshop to compose the entire ad typically presents final reproduction output issues and such documents are strongly discouraged.

Our in-house software programs are Adobe CS5 Creative Suite and Adobe Acrobat & Distiller X.
